

Just to keep you up-to-date on what is happening here at Everglades Community Church.

This is the latest. We are now in a restoration mode. The Bell Tower and Narthex were rather water-damaged over the years. The structure was completed in 1940 and has stood the test of time through hurricanes, tropical storms and the blistering summer sun.

The project you see in the picture is scheduled to be completed within thirty days, hopefully. The windows will be shaped to look again as they did in 1940 and the stained glass windows will be re-installed and covered and protected by impact resistant glass. We are told that the supports under the church are structurally sound. So, this will complete our first phase of restoration.

I will send you a picture after this phase is completed. Also, if you want to keep up with us on a weekly basis, visit our website at www.evergladescommunitychurch.com and see our weekly Order of Worship. Also, if you have not yet received our summer newsletter The Summer Messenger, will be posted on our website later today. You can also go to the website and read the Proclamation by Everglades City designating our church as a Historical Site. We are also progressing in having the State of Florida designate us as a State Historical Site that will include a historical marker to be placed in front of the church. Our four new stained glass windows should be ready by the first of September.

This is all for now. Please let me hear from you and I will answer you. If you have prayer requests, please let me know. God bless you and yours. Pastor Bob+
